BORGO de' MEDICI

Delizie Toscane

The History

The Medici family ruled the city of Florence in the region of Tuscany from 1433 until 1756. Every time a Tuscan village or town was conquered by the Florentine Army, a stone stamp marker with the Medici House symbol was put in evidence on the wall of the town or on the city hall building and the village became officially a "Borgo de' Medici".

The Medici family had a major influence on the growth of the Italian Renaissance through their patronage and support of the arts, the humanities and the development of modern Italian cuisine.
